**"TRAVELING – IT LEAVES YOU SPEECHLESS, THEN TURNS YOU INTO A STORYTELLER."**

Ibn Buttata, 14th Century Geographer & Explorer

Alpine Adventures is proud to acknowledge that, as we celebrate our 24th year in business, we know we have created a least a couple of generations of storytellers. It is our happy job to work with travelers to create that perfect itinerary, from flights and transfers, to lodging, lift tickets, lessons, rentals - and all the elements of this coming year's ski adventures.

My sister and business co-owner, Richelle Blanken, and I are life-long skiers, and it is from our experiences of traveling to ski races that we eventually started Alpine Adventures. Our friends would listen to our stories of where we had skied, what else we had seen, the great food discovered on the trip, the fun people we skied with and partied with, and before long they were asking us if we could set up a similar trip for them and their families as well. This business was born out of love for the sport and love for the travel involved to get to the great ski destinations in the world.

As this catalog comes out, the ski season is just wrapping up in Chile and Argentina, South America. Shortly after, the race will be on to see which ski area can open first in the high Rocky Mountains of Colorado, USA. After America's Thanksgiving holiday, the snow will start to accumulate in Europe, in time for early winter skiers to also enjoy the timeless Christmas markets in Germany, Austria, Switzerland, France and Italy. After skiing the classic mountains in North America and Europe, we know we can count on fresh spring powder on the slopes of multiple ski destinations in Japan. We have skied all these places, and you can too.

Our ski trip-loving Travel Specialists can set you and your family up with a journey together that will meet your budget needs and your dreams for a life long memory of a healthy and thrilling adventure. GO TO THE SNOW! Be outdoors, ski hard, then return home and tell your stories of this year's ski experiences. We will be there with you every step of the way.

Also - a big shout out to our sister company, Adventures Africa. We have come to love Africa so much that we now also feature Safari game drives, Great White shark dive trips, whale watching, parasailing, wine tours on bicycles, bungee jumping, zip lining, cultural tours, and even skiing in this most ancient and breathtaking of continents. Since you are already halfway there, we can add a trip to Africa onto the end of your ski trip in Europe. Think about it! You can go from tripping over "snow snakes" on the slopes to watching elephants, rhino, lions, water buffalo, wild dogs and a myriad of bird life - all in the same outing. How much of our world are you ready to see?! Go travel - then tell everyone your stories. Contact us today to start planning!
